

ANIKET RAJ

Full Stack Developer | MERN Stack | React.js | Node.js

Email: aniketr8832@gmail.com | **Phone:** +91-9304050380 | **LinkedIn:** linkedin.com/in/aniket-raj-aiml | **GitHub:** github.com/AR-AniketRaj | Ghaziabad, Uttar Pradesh

About Me

Full Stack Developer specialising in the MERN stack with three production-grade web applications. Experienced in designing RESTful APIs, implementing secure authentication, integrating third-party APIs, and building responsive user interfaces. Passionate about writing clean, maintainable code and solving real-world problems.

Technical Skills

Languages: C++, JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3, Bootstrap, EJS, Chart.js

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Passport.js, Multer

Databases: MongoDB, Mongoose

Tools: Git, GitHub, Postman, VS Code, npm, Render, MongoDB Atlas

Concepts: MVC Architecture, CRUD, Authentication & Authorization, Responsive Design, OOP, DSA

Projects

ATSCheck — AI Resume ATS Analyzer

- Developed an AI-powered Resume ATS Analyzer using the MERN stack for resume upload, ATS compatibility analysis, keyword detection, and actionable feedback.
- Implemented secure JWT authentication, resume upload/parsing, protected dashboards, and REST APIs with MongoDB.
- Built a responsive React dashboard with ATS score visualization, keyword analysis, and resume feedback.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Multer, PDF Parser, REST APIs, Chart.js, Bootstrap

Investify — Stock Market Analytics Platform

- Reduced portfolio tracking time by consolidating 3 live financial APIs into a real-time dashboard.
- Built 10+ RESTful endpoints with JWT authentication and MongoDB CRUD.
- Created interactive Chart.js visualizations for stock trends.

Wanderlust — Accommodation Booking Platform

- Built an end-to-end booking platform with listings, search, reservations, and reviews.
- Implemented Passport.js authentication and secure session management.
- Developed responsive Bootstrap and EJS interfaces for all devices.

Education

B.Tech in Computer Science & Engineering (AI & Machine Learning)

Dr. A. P. J. Abdul Kalam Technical University, Lucknow

Expected Graduation: May 2028

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks, OOP, DBMS, Artificial Intelligence, Machine Learning
