Professional Summary

Passionate third-year Computer Science (AI & ML) student with hands-on experience building full-stack MERN applications and scalable backend services. Strong foundation in Data Structures & Algorithms, OOP, DBMS, and Operating Systems. Experienced in developing secure REST APIs, authentication systems, and responsive web applications. Seeking Software Development Engineer, Backend, or Full Stack internship opportunities to build impactful software.

Technical Skills

Languages: C++, JavaScript, HTML, CSS

Frontend: React.js, Vite, Bootstrap, Material UI

Backend: Node.js, Express.js

Database: MongoDB, Mongoose

Authentication: JWT, bcrypt, Cookies

APIs: REST API

Tools: Git, GitHub, Postman, VS Code, Render

Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Projects

ATSCheck — AI Resume ATS Analyzer

Developed an AI-powered MERN application that evaluates resumes against job descriptions using ATS score calculation, keyword matching, and resume parsing.

- Built scalable REST APIs, JWT authentication, resume upload (PDF), personalized improvement suggestions, missing keyword detection, and responsive dashboard.
- Improved resume screening efficiency through automated analysis and secure cloud deployment on Render.

Tech: React.js, Vite, Node.js, Express.js, MongoDB, JWT, REST API, Render

Investify — Stock Market Analytics Platform

Built a full-stack dashboard featuring live stock prices, market news, portfolio management, and interactive analytics.

- Integrated Finnhub API, engineered secure JWT-based authentication, designed responsive UI, and optimized backend REST APIs.

Tech: React.js, Node.js, Express.js, MongoDB, Finnhub API, Chart.js, JWT, Material UI

Wanderlust — Accommodation Booking Platform

Developed an Airbnb-inspired booking platform with authentication, listings, image uploads, reviews, search/filtering, and complete CRUD functionality.

- Implemented Passport.js authentication, Cloudinary integration, and scalable backend architecture.

Tech: Node.js, Express.js, MongoDB, EJS, Cloudinary, Passport.js

Education

B.Tech in Computer Science & Engineering (Artificial Intelligence & Machine Learning)

Dr. A. P. J. Abdul Kalam Technical University, Lucknow

Expected Graduation: 2028

Achievements

- Built and deployed three end-to-end MERN stack applications.
- Strong problem-solving skills with consistent Data Structures & Algorithms practice.

Certifications

Add relevant certifications (if any).
